**THE MOST REALISTIC MOVING DECOYS ON THE MARKET TODAY**

**Invented and Hand Crafted by Chris Green  
(As seen in his best selling DVDs)**

**NOW IS THE TIME !**

**Get your very own 'TRAITOR' decoys for this season !  
First come first served...**

**Chris Green** was the first to invent decoys made from expanded foam way back in 1996. Some have tried to imitate them but none have even come close. 'TRAITOR' Goose Decoys are without doubt the most accurate, true to life practical decoys by far. The benefits of these decoys are:- Ultra lightweight, carry them flat, exceptional movement....and they work!

### **1) CANADA GOOSE 'TRAITOR' LANDING DECOY**

These Landing Decoys were a smash hit last season. Immaculately printed with attention to detail. Non-Glare finish gives total realism. These Landing Decoys give a third dimension to any decoy pattern. Carry them flat, quick assembly, weatherproof and exceptionally lightweight. (You can see them in action in Chris' Wildfowling films!)

### **2) PINKFOOT GOOSE 'TRAITOR' LANDING DECOY**

Specification as above - look again at the attention to detail. They're deadly!

### **3) PINKFOOT GOOSE 'TRAITOR' SENTRY DECOY**

Study Pinkfooted Geese on the feed and you will always notice one of two birds with their heads up to make sure all is safe. Notice how they walk? Even in a light breeze these decoys imitate the waddling/walking movement of real birds. Comes complete with its own integral ground peg. Two or three of these decoys added to your pattern will definitely make a difference.

### **4) PINKFOOT GOOSE 'TRAITOR' FEEDING DECOY**

Exceptional feeding movement and realism second to none. These moving Pinkfoot Feeding Decoys are a 'must' for all serious inland Decoyers. In fact Pinkfoot Geese, Greylags and even Canadas will sometimes land amongst them! Comes complete with its own integral peg.

### **5) CANADA GOOSE 'TRAITOR' FEEDING DECOY**

Exactly the same specification as above.  
These 'Feeders' are the most practical and effective decoys we have ever used.
